

# ONSHORE SERVICE OVERVIEW 2021

# WHO ARE WE?

A division of Southey Holdings (PTY) Ltd, A leading group of engineering companies and industrial service providers specializing in the delivery of full turnkey solutions to clients in the Industrial, Marine, Offshore and Energy Sectors.

Established in 1939, Southey contracting offered industrial painting and contracting services to both the mining and heavy industries in South Africa. Since then, Southey's Offshore Division was created, which now supplies specialist Maintenance, Corrosion protection, UHPBW, Inspection, Access Solutions, NDT and Personnel services to the Oil and Gas, Power Generation, Petrochemical, Mining, Marine and Energy sectors in Africa.

## SERVICE OFFERING

Southey Contracting provides solutions to improve, maintain and protect our clients plant and assets by providing specialized, innovative and mobile solutions to our customers throughout Africa utilizing our expertise gained through years of experience.

Our African footprint allows us to mobilize our multi disciplined teams swiftly and efficiently in order to meet our client's requirements. In line with our business philosophy we strategically place equipment in our operating regions which allows us to provide a quick turn around on contracts that we secure throughout Africa.
